

Regulatory incentives
by raising the permitted building
ratios for investors
in industrial development zones

The Higher Planning Council, headed by the Minister of Investment, decided to raise permitted building ratios in industrial development zones, enabling investors to expand and maximize the use of the land.

With the commitment to:

- ✓ Environmental requirements
- ✓ Public safety standards
- ✓ Parking and truck movement

Building percentage based on land

5,001–15,000 m² → **65%**

15,001–25,000 m² → **70%**

25,001 m² and above → **75%**

Non-financial incentives
to enhance industrial competitiveness,
support the **Economic Modernisation**
Vision, and make Jordan's industrial
zones **more attractive and enabling for**
investors.
